Universal Site Management

The Basics

01

Register Your Free Account

Register your free account

Go to <http://mrqr.me> select Register.

Enter your valid email address and password then select REGISTER.

You will receive an email requesting that you verify your email address.

The image shows the MrQR registration page. It features a large blue 'MrQR' logo at the top. Below it is a form with fields for 'Email' and 'Password', a 'Remember me' checkbox, and links for 'Forgot your password?' and 'REGISTER'. The 'REGISTER' button is highlighted with a red circle.

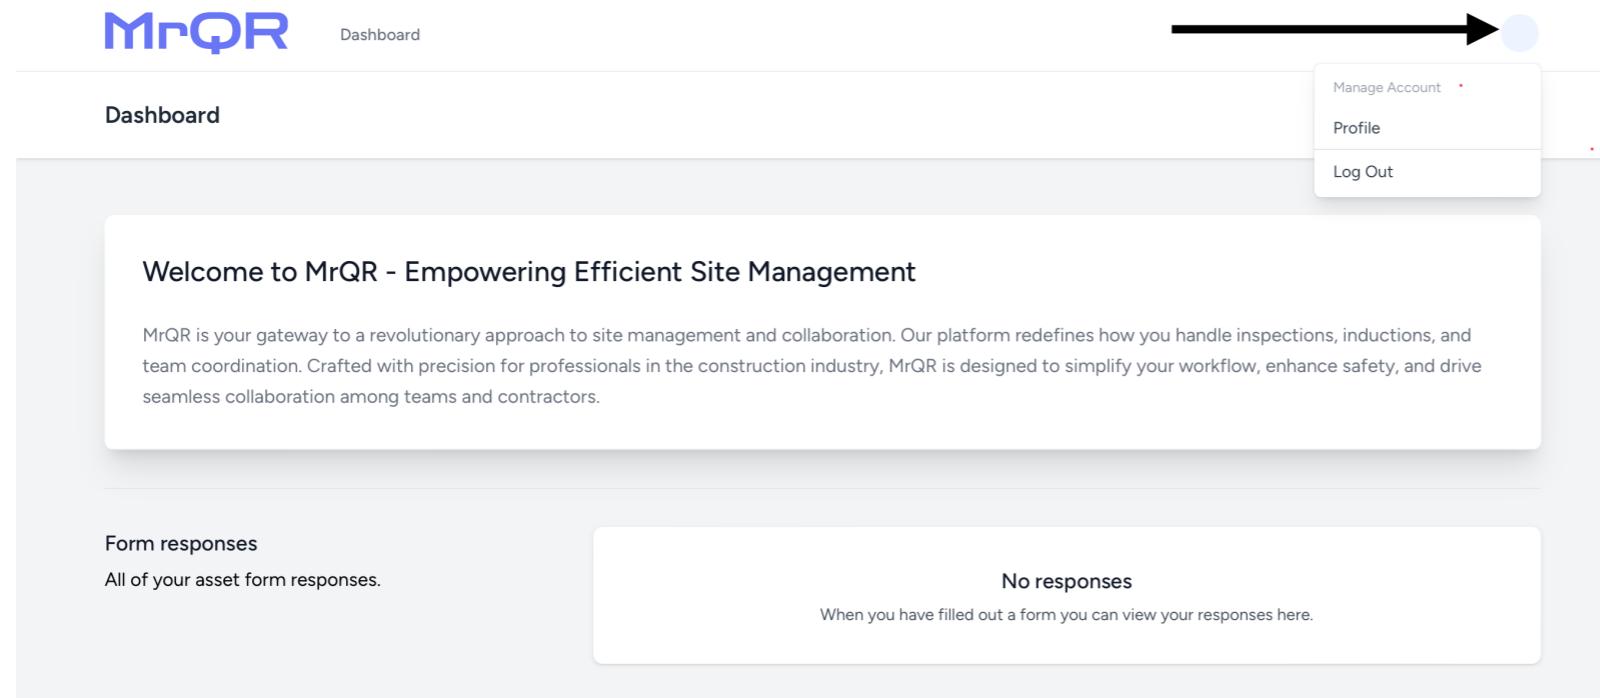

Your Free account will allow you access to the MrQR platform enabling you to request access and complete all the MrQR Site Forms used on a site.

The image shows the MrQR registration page again. This time, the 'Email' field contains 'myemail@myemal.com' and the 'Password' field contains 'vujzow-mUqpic-4qydn', which is highlighted with a green bar and labeled 'Strong Password'. Below the form are links for 'Already registered?' and a large 'REGISTER' button, which is highlighted with a red arrow pointing to it.

02

Subscribing to a Pro Account

Personal Site

As pro user you have access to your fully functional personal site, you can add unlimited site registers, assets and you will have access to all the sample forms.

Only you can complete forms on your personal site.

By clicking on your personal site you can access the site settings Menu, you to change the name of your site.

You can also add new sites (additional fees required) this will add the form builder platform to your account.

Additional Sites have the same functionality of your personal site but it is open to an unlimited number of operators allowing you to manage larger projects

The screenshot shows the MrQR dashboard with a purple header bar. The header includes the MrQR logo, a navigation bar with 'Dashboard' and 'Registers', and a dropdown menu labeled 'Personal Site'. The dropdown menu contains three options: 'Manage Site', 'Site Settings', and 'Create new site'. Below the header, the main dashboard area has a title 'Welcome to MrQR - Empowering Efficient Site Management' and a descriptive paragraph about the platform's purpose. On the left side of the dashboard, there is a section titled 'Form responses' with a sub-section 'All of your asset form responses.' To the right of this, there is a box titled 'No responses' with the sub-section 'When you have filled out a form you can view your responses here.'

05 Registers

Creating a new register

You can create an unlimited number of registers. The Register is the List or directory of your items or assets that want to control

Registers can be for anything from Site Safety, Site Access, Access equipment, MEWPS, Electrical equipment, Apartments, Fire Doors, Security Panels the number and type of registers will be determined by the complexity of your site and is only limited by your imagination.

The screenshot shows the MrQR software interface with a purple header bar. The main content area has a light gray background. At the top right, there are navigation links: 'Dashboard', 'Registers' (which is underlined), and 'Personal Site'. Below this, the word 'Registers' is centered above a large white rectangular input field. Inside the field, the placeholder text 'Register name' is visible, along with a small rectangular input box below it. To the right of the input box is a dark blue 'CREATE' button with white text. To the left of the input field, the text 'New register' and 'Create a new register.' is displayed. Further down, another white rectangular box contains the heading 'Registers' and the subtext 'All of the registers that are managed by this site.' To the right of this box, the text 'No Registers' and 'Get started by creating one above.' is shown. The overall design is clean and modern, using a sans-serif font throughout.

Adding assets to registers

Once your register has been created you can now add an unlimited number of assets, you can choose how you want to identify your assets.

If you require you can assign a group for your assets, the group list will grow as you add more.

You can provide a detailed description of your asset including serial numbers & key dates.

Once created you can start assigning forms

The screenshot shows the MrQR software interface. At the top, there is a navigation bar with the logo 'MrQR', 'Dashboard', 'Registers' (which is currently selected), and 'Personal Site'. Below the navigation bar, the page title is 'Step Ladders'. On the left, there is a sidebar with the heading 'Assets' and a message: 'All of the assets that are managed by this site.' It also says 'No items' and 'Get started by creating an item above.' In the main content area, there is a section titled 'New asset' with the sub-instruction 'Create a new asset.' To the right, there is a form for creating a new asset. The fields are: 'Name' (containing 'Step Ladder 1'), 'Group' (set to 'Access Equipment'), and 'Description' (containing '10 Tread, Fibreglass'). A red circle highlights the 'CREATE' button at the bottom right of this form. Below this, there is another section titled 'Register name' with the sub-instruction 'The register's name and owner information.' It contains a field 'Register name' (containing 'Step Ladders') and a 'SAVE' button at the bottom right.

Assigning forms

Once the asset has been created forms can be assigned, there are a number of standard forms to choose from.

If you purchase additional sites the form builder platform is added to your platform.

You then can create your own forms and duplicate forms across your sites and modify them to suite the site requirements.

Forms can then be accessed by approved users by scanning the MrQR code.
